Match is not a requirement for DLIS Florida CARES Act funding

Number of applications that can be submitted: One application per eligible entity. The application can be submitted directly by an eligible entity or by another eligible entity on their behalf.

1 Quoted directly from IMLS Official Notice of Award.
Eligibility

Any Florida organization that meets the eligibility criteria described below can apply for DLIS Florida CARES Act funding:

- The organization’s library services program must be headed and administered by a librarian who has completed a library education program accredited by the American Library Association; and
- Nonprofit organizations must be qualified or registered pursuant to Chapter 617, Florida Statutes and be in good standing. Good standing indicates that the nonprofit organization has a current certificate of status from the Florida Department of State, Division of Corporations.

Eligible Organizations

The following entities are eligible to apply:

- Florida libraries and nonprofit organizations primarily related to the provision or support of library services are eligible to apply for DLIS Florida CARES Act funds.
- Florida museums and cultural organizations are eligible to apply for DLIS Florida CARES Act funds if they have a library that meets the definition of a special library as described below.

ADDITIONAL INFORMATION ON ELIGIBILITY FOR SPECIFIC ORGANIZATION TYPES:

Public libraries. A public library is defined as an organized collection of information resources, with paid staff and regularly scheduled hours for being open to the public, that is legally established and is supported in whole or in part with public funds, or makes its collections accessible to the public either directly or through the Florida Library Information Network (FLIN). This category also includes state-supported institutions and Native American tribal libraries.

The headquarters of a library system or cooperative must submit the application. The project can be for the entire system, an individual branch or for some other portion of the organization, but only the headquarters can submit the application. For example: If the project will benefit one county in a multi-county cooperative, the director of the multi-county cooperative must submit the application on behalf of the county library.

Public elementary, secondary or charter school libraries. The county school board coordinates and applies for grants on behalf of public elementary, secondary and charter school libraries. Grants may be for a single member or multiple members of a school district. To be eligible to receive a grant, the district media coordinator or contact must meet the basic eligibility requirements (see Eligibility section above).
**Academic libraries.** Academic libraries include public state universities, state or community colleges and private post-secondary education libraries. The academic support organization for the public colleges and universities is also included in this category. To be eligible to receive a grant, the library must meet the basic eligibility requirements (see Eligibility section above).

**Library consortia.** Eligible library consortia in Florida are the five multitype library cooperatives: Northeast Florida Library Information Network, Panhandle Library Access Network, Southeast Florida Library Information Network, Southwest Florida Library Network and Tampa Bay Library Consortium. To be eligible to receive a grant, the library director must meet the basic eligibility requirements (see Eligibility section above).

**Special libraries.** Special libraries include information resource centers located at publicly supported government agencies, museums, hospitals, associations and other organizations with specialized information needs. At least fifty percent of the agency’s operating funds must come from public governmental sources. To be eligible to receive a grant, the library must meet the basic eligibility requirements (see Eligibility section above).

**Other organizations serving libraries.** An organization that strengthens and supports libraries, such as state professional library associations or local Friends groups, must be a not-for-profit corporation, qualified or registered pursuant to Chapter 617, Florida Statutes and in good standing. (see Eligibility section above).

Unlike the other organizations listed above, the project manager must be a librarian who has completed a library education program accredited by the American Library Association. Projects coordinated by these organizations that are awarded DLIS Florida CARES Act funds must be open to staff of any Florida library or allied organization and not limited to members of the organization.

**Partner Application Submission**

An organization may submit an application and administer a project on behalf of another eligible organization. If this is done, the expectations are:

- The partner (beneficiary) organization’s name should be clearly included in the application title.

- Funds must be received, expended and administered by the applicant organization. Grant funds cannot be distributed to the partner organization for expenditure.

- A Partnership Form must be signed between the applicant and the partner organization (beneficiary). The form should indicate that the partner wants the applicant to apply for funding on their behalf and what the applicant will do for the partner. Signed forms should be included in the Certifications and Attachments section, in the Support Materials section. This form is available at info.florida.gov/services-for-libraries/grants/cares/forms/.
Use of Funds

Federal grants, such as the CARES Act grants, have limitations on what items and services may be purchased using grant funds. Some items and services are "allowable costs," meaning that they may be purchased using grant funds, while others are not.

Expenditures shall be in compliance with the state and federal guidelines for allowable project costs. State guidelines for allowable costs are outlined in the Department of Financial Services’ Reference Guide for State Expenditures, which is available online at https://www.myfloridacfo.com/division/aa/manuals/documents/ReferenceGuideforStateExpenditures.pdf.

In general:

Grant funds are designed for direct support of services and programs.

Grant funds may be used for evaluation related costs.

Grant funds may be used to assist in making technology and information resources available for persons with disabilities.

If grant or matching funds are used for travel expenses, they must be paid in accordance to the provisions of Section 112.061, Florida Statutes.

Grant funds may be used for indirect costs. There are four options for indirect costs in the application:

1. Use a current indirect cost rate already negotiated with a federal agency (2 CFR 2 §200.414(e));

2. Use an indirect cost rate proposed to a federal agency but not yet approved (2 CFR 2 §200.414(e));

3. Use a rate not to exceed 10% of the total direct costs if your organization has never had a federally negotiated indirect cost rate and you are not subject to other requirements (e.g., for local governments) (2 CFR 2 §200.414(f)); or

4. Do not include any indirect costs.

When determining the amount that can be charged to indirect costs, the modified total direct costs amount (MTDC) must be used as the amount of funds that the indirect costs are calculated against. The MTDC is the direct costs of the project minus certain exclusions that include equipment and space rental costs. A list of exclusions that cannot be a part of the MTDC are in 2 CFR §200.68.

Grant funds may not be used for:

1. Construction. Funds may not be used to build, remodel or expand library facilities. However, they may be used to retrofit a building to accommodate technologies (e.g., wiring).

2. Audits. If the grant recipient’s governing entity has received less than $750,000 in federal funds, grant funds may not be used to cover audit costs.

3. Food. Although food may be served at a program paid for with grant funds, the food
may not be purchased with grant funds.

**Funding Decision Process**

The application funding decision process is accomplished in three phases:

1. **Grants Staff Review**

   Upon receipt by the Division, applications will be reviewed by Grants staff for eligibility and completeness. If an application is found to be incomplete, the applicant will be notified of the identified deficiencies and will be given an opportunity to submit information or documentation to render the application complete. If the identified deficiencies are not corrected by the established deadline, the application will be declared ineligible. When applications are declared ineligible, applicants will be notified of their ineligibility.

2. **Application Review Meeting**

   The State Library Council serves as the review panel and makes funding recommendations on all grant applications submitted by eligible organizations. The application review will be held during a public meeting. The Division strongly encourages applicants to attend the grant panel meeting; however, it is not required. Meeting information will be emailed to applicants and posted on the Division’s website.

   Applications will be reviewed by the panel in two rounds:

   1. **Scoring Round**

      Individual panel members will review and score each application independently prior to the meeting, using the Panel Evaluation Form. Initial panel member scores must be entered into the DOS Grants System at dosgrants.com prior to the panel meeting.

      Each application will be reviewed and discussed individually by the panel during the meeting. Applicants may also be given an opportunity to answer questions asked by panel members. Panel members will have an opportunity to modify and/or finalize their scores during the meeting. After discussion of each application, each panel member will voice their final score on the application. The official score is the one voiced at the meeting.

      Once the finalized scores are received from the panelists, each application score will then be averaged. The average of the individual panelist’s scores will be rounded to three decimal places.

      Applications that score at or above 60 points will be considered by the panel for funding recommendations. Those applications that receive an average score equal to 59 or lower will not be considered further for funding.

      Once the average scoring has been completed, Division staff will provide a list to the panel, ordered by score, for all applications scoring at or above 60 points.
2. Funding Round

The panel will make a recommendation of a funding amount for each application, with a grand total up to the amount of available funding.

- Funding recommendations can be from $0 up to the full amount of the funding request.
- The panel can recommend revisions or changes to applications as a condition for funding.
- The panel cannot recommend more funding than is requested.
- The panel can determine the final funding recommendation for each application in various ways such as fully funding from the highest scored application until all of the funds are allocated, percentage funding for all applications or any other method chosen by the panel.

3. Secretary of State Review

The panel funding recommendations are submitted to the Secretary of State for final review and approval. The Secretary of State has the final authority to approve, amend or deny funding recommendations and to award grants.

Upon completion of the application review process, applicants are notified whether or not their application was approved for funding. Results of the evaluation of grant applications are available upon request after the review process is complete.
Application

The following information shall be provided in the application. The application shall be submitted on the DOS Grants System at dosgrants.com.

The Division will use the information provided by the applicant when developing the Scope of Work and Deliverables in the grant agreements of the approved projects.

- Organization information.
- Organization director contact information.
- Project manager contact information.
- DUNS number.

Project Information. Provide overall application information, including the project title, project summary, organizational purpose and organization governance.

If the application is being submitted on behalf of a partner organization, include the name of the beneficiary organization in the project title and information on the beneficiary in the project summary as applicable.

Activities. Describe the specific activities you will implement “to prevent, prepare for, and respond to coronavirus in your community.” If the project will provide solutions to several different needs, describe each in a separate activity. Prioritize two or more activities. If there is only one activity, prioritize it as one of one.

For each activity include:

- The activity name.
- A description of who will benefit, including demographics and other specific information.

Provide a detailed overall timeline of all of the proposed activities. If desired, the timeline can be in the form of a Gantt or other chart and included in the attachments in Section D, Certifications and Attachments, Support Materials section. To find out more about a Gantt chart, visit https://www.gantt.com/
Budget. Provide details on the proposed expenditures of all funds. The budget explains and justifies the funds required for each activity (or activities). Each section of the budget is comprised of two required parts: the budget detail and budget narrative of the proposed amounts. The narrative provides a detailed explanation and justification of proposed expenditures. For each amount listed in the detail, the narrative should show how the amounts were calculated, for both grant and matching (if applicable) funds; i.e., include calculations, unit costs or breakdown of costs.

Matching funds are not required; however, they can be included if desired.

The applicant organization is allowed, if desired, to charge an indirect cost (administrative fee) for the project. For more information on indirect costs, please see the Use of Funds section.
